More order in the workplace

Your new Crafter's mobile workspace is easy to keep tidy. Whether gloves, delivery note or lunch box – nearly everything you need for your work can be stored properly and retrieved quickly thanks to a cleverly conceived storage concept. For example, in the new mobile phone interface with inductive charging function, the perfect parking space for your smartphone: just plug any compatible model in here to conveniently charge it wirelessly while driving. In addition, the new interior roof light module not only lets you control the interior lights individually, but you can also get help quickly in an emergency with a simple push of a button.
